**LinkedIn:** https://www.linkedin.com/in/moshood-yakubu-b7a7b3256/

## Summary

Web Developer with hands-on experience building interactive web applications and content-driven platforms. Skilled in frontend development (React, Next.js, Tailwind CSS, Framer Motion, GSAP) and backend systems (Node.js, MongoDB, CMS platforms). Dedicated to delivering smooth user experiences and scalable solutions.

## Skills

- **Frontend:** React.js, Next.js, Tailwind CSS, Framer Motion, GSAP

- **Backend:** Node.js, Express.js, MongoDB, Cloud CMS, Backend-as-a-Service (Appwrite, Firebase)

- **Other Tools:** Git & GitHub, Postman, VSCode

- **Core Strengths:** UI/UX Animation, Full stack Web Development, CMS Integration, Cloud-based Deployments

## Projects

- **Car Showcase Website**
  **React, Framer Motion, Tailwind CSS**
  Developed a dynamic car showcase platform featuring responsive layouts and smooth, visually appealing animations.

- **E-commerce Web Application**
- **MERN Stack (MongoDB, Express, React, Node.js)**
  Created a fully functional e-commerce site with features including product listing, user authentication, shopping cart, and secure checkout process.

- **Audio Extraction Tool**
  **React, Media Processing Workflows (FFmpeg)**
  Built an intuitive web tool allowing users to upload videos and extract high-quality audio files with a seamless interface.

- **iPhone 16 Pro Clone Website**
  **Next.js, Tailwind CSS, Framer Motion, GSAP**
  Designed and developed a clean, animated landing page replicating the iPhone 16 Pro promotional site to showcase design and frontend animation capabilities.
